

MUSIC ASSOCIATION

The National Federation of State High School Associations (NFHS) Music Association is a national network of music directors, adjudicators and state coordinators. Its basic purpose is to improve the level and quality of participation and adjudication at high school contests and festivals. The mission of the NFHS Music Association is to identify and meet the common needs of educators who participate in or sponsor high school education-based interscholastic activities.

Online Courses

Online education courses specifically for music adjudicators are now available through the NFHS Learning Center at www.NFHSLearn.com. "Introduction to Music Adjudication" and "Introduction to Interscholastic Music" are designed to help and guide interscholastic music adjudicators and educators to learn and improve the skills necessary to provide sound feedback to students participating in music – both in the classroom and in the contest setting.
