October 18, 2018

Dear Sir/Madam,

NAERA (National Athletic Equipment Reconditioners Association), NOCSAE (National Operating Committee on Standards for Athletic Equipment) and helmet manufacturers would like to inform you of updated standards associated with reconditioning and recertification of football, lacrosse, baseball and softball helmets.

NAERA recommends that during every football, lacrosse, baseball and softball season or practice period, every helmet should be cleaned and inspected regularly by a school or organization staff member with knowledge of manufacturer recommendations. We further recommend every helmet should be reconditioned and recertified annually unless stated otherwise by the manufacturer. ONLY a company licensed by NOCSAE can perform the recertification of football, lacrosse, baseball and softball helmets. For a list of NAERA members that are licensed by NOCSAE please visit our web site [www.naera.net](http://www.naera.net).

On January 1, 2017 NOCSAE put into effect standard ND 001 6.1.1 shown below.

**ND 001 6.1.1. Helmets intended to be recertified shall have a recertification interval provided by the manufacturer. Certification life is limited to this time period. Helmets not recertified during the stated interval shall no longer be certified. Recertification interval required for warranty validation shall satisfy this requirement.**

Every state association playing under NFHS (National Federation of High Schools) and NCAA (National Collegiate Athletic Association) rules has adopted the NOCSAE standards for football, lacrosse, baseball and softball helmets. Other state associations may have similar rules; however, most support the helmet manufactures recommendations.

Please make certain your school or organization is using a reconditioning company licensed by NOCSAE.

Sincerely,

*Tony Beam*

Tony Beam, BA, E.S., CAA  
Executive Director, NAERA
